Transportation	£3,000	\$4,140
Total	£41,760	\$57,629
Exchange Rate £1 = \$	\$1.38	

Based on the information from your FAFSA, and details of your program of study, AUB staff will provide you with an individual COA document. This will be based on the duration of your programme, tuition fees, visa costs, flights and living expenses. AUB calculates the Cost of Attendance using the average cost for the basic examples of expenses for term time only. The Cost of Attendance is to cover all reasonable anticipated expenses for studies during the academic year. Not every student will have need of the entire budgeted amount. When your paperwork is sent to you, you may choose to borrow less than the calculated cost of attendance. You may not borrow more. US Loans are issued in US dollars. AUB will use a reasonable average of the US Dollar to UK Pound to estimate the amount needed to borrow from the loan program. The 2025/2026 exchange rate that will be used to calculate your loans is \$1.38USD = £1 GBP. Upon receipt of your funds, the actual exchange rate will be calculated which may result in a slight fluctuation of your actual amount. Any questions about the Cost of Attendance can be directed to usloans@aub.ac.uk
